A lifetime of music begins in childhood,
and your child will never be more ready
to learn than in these early years

Music can have a powerful influence on a child's development from the very youngest age. In addition to stimulating creativity and adding social enjoyment, active music making has shown to contribute to making kids brighter, in ways we're just beginning to understand.

Ask for our special complimentary booklet, "It's all in Black & White," presenting the lasting rewards of piano training.
